ABOUT US

Founded in 1993 as a one-man operation by Dan Manes, Erin Refrigeration has expanded to a team of over 40 dedicated employees. For over 24 years, Erin Refrigeration has provided solutions for customers throughout Ontario with state of the art technology.

Our knowledge of equipment technology in commercial refrigeration, food service equipment and commercial and heating and air conditioning enables us to offer total project management that includes design, sales, installation, and service of superior equipment. We are a customer-driven, value-oriented company that takes pride in the excellence we offer.

We are committed to health & safety and are continuously participating in health & safety programs. We are registered members of WSIB in good standing. Our employees are up to date with the required health & safety training and our brazers are TSSA certified.

Erin Refrigeration proudly announces the addition of CO2 installation to serve you better. Our state of the art equipment combined with our years of experience in refrigeration makes us a leader in our industry.
